

Operations Check List

Digital Transformation

Standard operating procedures are written, step-by-step instructions that describe how to perform a routine activity. Employees should complete them in the exact way every time so that the business can remain consistent. Monitor and manage your irrigation pump with our SIPM application

- We prepare digital standard operation procedures for key processes.
- SOP can be stored and accessed at any time on any device by authorized person.
- Having a SOP in place ensures that regardless of who is working, business processes are being completed the correct way.
- We create organization media center for the workforce for better understandings and awareness about company.
- Video files can be stored and can be accessed at any time in wireless mode.
